Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### *Specification*

Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Conference Publication: Secure Software Distribution System by T. Bartoletti et al (hereafter Bartoletti), as provided by applicant.

#### Claims 1 and 6::

Bartoletti discloses:

- determining which of said software patches should be applied to said client's systems

[INSTALL PATCHES AS NEEDED per Fig 1, page 6, paragraph 2 lines 15-20]

Art Unit: 2171

- collecting said software patches from said vendors by downloading them from said vendor's ftp sites [MONITOR VENDOR'S SITES FOR THE LATEST PATCHES per Fig 1]
- interpreting which files will be affected by the installation of said software patches [page 6, paragraph 2]
- interpreting which directories will be affected by the installation of said software patches [page 6, paragraph 2]
- interpreting the operating system type, version and architecture said software patches apply to interpreting dependencies on other layered products [page 4, paragraph 2]
- interpreting how much memory and disk space is needed to install software upgrades [page 4, paragraph 2]
- distributing said software patches to said client's systems [TARGET SYSTEM 1, TARGET SYSTEM 2 per Fig 1]
- installing said software patches [INSTALL PATCHES AS NEEDED per Fig 1]

### ***Response to Arguments***

Applicant's arguments filed 2/17/2004 have been fully considered but they are not persuasive.

#### **First Applicant Argument:**

Applicant states in the sixth paragraph on page 6 "The paper describes the problems that are expected to be encountered and the approach the inventors intended to use in solving the problem. The paper does not describe a working system."

Art Unit: 2171

**First Examiner Response:**

Examiner is not persuaded. The following is taken from the first paragraph of page 9 of Abstract of Secure Software Distribution System by T Bartoletti, LA. Dobbs and M Kelley.

In March of 1997, the end of the first phase of development, we will release an alpha-version of SSDS. The alpha-version includes a graphical user interface to support the scheduling, monitoring, and reporting of evaluation jobs. This release is limited to patches that replace executables and/or manipulate the directory and file permissions and ownership. Patches that manipulate shared libraries or require editing of configuration files will be addressed in a later phase of development.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
